

TC3 Campus Technology

Exciting News: As a TC3 student, you now have the opportunity to improve your connections to people and information. The Office of Campus Technology brings you a number of new opportunities this fall.

TC3 has created a new portal to help you find all of your online resources. You can access your online course, add or drop classes, view your schedule, add money to your TC3 OneCard, and do a great deal more at myTC3. For more information go to TC3.edu and select the “myTC3” link.

Would you like to get a text if your class is cancelled, the school is closed; or would you like to check your grades on your phone? TC3 introduces another service to provide you with a better and more successful learning experience, launching TC3’s myMOBILE. For more information: Go to TC3.edu and select “myTC3,” then select “myMOBILE.”

As part of a special offer, TC3 students can purchase Microsoft office for \$68.95. For more information: Go to TC3.edu and select “Current Students,” then select “Campus Technology,” then “Students.”

TC3 is offering a computer donation program for students. We are working with the TC3 Foundation Inc. to provide recycled computers to students with financial need. This program will kick off later in the fall semester. Please check out the campus technology web site for more information as this program develops by going to TC3.edu and selecting “Current Students,” then “Campus Technology,” then “Students.”

Coming Soon! This fall we also will be opening an area on the second floor of the Baker Commons to help students with common technology/computer problems. Our goal is to make it easier for students to find answers to their questions about technology. Not sure how to use one of our online systems? Need to connect your computer to the wireless network on campus? You’ll be able to check out this area for answers to these and many other questions.
