

Institutional Planning and Assessment Strategic Initiatives

February 2007

Amended February 2008

Amended February 2009

Goal	Initiatives
Climate To inspire a culture of learning based on an environment of mutual respect, collaboration, transparency, and trust	Strengthen TC3 Global and Diversity initiatives. Diversity enriches our learning. Preparation of “our students and ourselves for citizenship in a global society” requires cross-cultural exposure and understanding gained on and off campus. This initiative includes efforts to diversify the TC3 community, to expose students and staff to the diversity of our local and global communities, and to help all members of the community gain the skills and sensitivity they need to support the success of all our students and staff.
	Increase co-curricular activities to strengthen the intellectual and fine arts cultures on campus. This initiative encompasses both <ul style="list-style-type: none">• on campus activities and• connections to cultural and community service activities in our local communities
	Development of a Residential Campus. We remain very much in transition from being a traditional commuter community college to becoming a fully realized residential campus, one supporting all aspects of our students’ learning and living. We must strengthen the integration of curricular, co-curricular, social/recreational, and residential life services and programming.
