

Communication & Media Arts Professional Development

News Production Workshop

June 22, 2010

9:00am – 3:30pm

*TC3 Main Campus in Dryden
Room 183 (Television Studio)*

Facilitated by Christine Guest,
TC3 Communication and Media Arts Instructor

This hands-on production workshop will cover studio news operations. During this workshop, participants will learn how a news production team works together. Participants will rotate through all studio positions, taking turns at directing, technical directing, floor directing, camera operation, lighting director, sound director, CG operator, producers and executive producers.

While designed to assist our Concurrent Enrollment (COMM) and Career Pathways Media Arts instructors, other teachers are welcome to attend if they are interested in developing courses, and possible concurrent enrollment, in this field. Teachers should have basic knowledge of video production and camera equipment available at their schools (in some cases, Tech Prep funding *may* be available for equipment).

Register by June 15 on MyLearningPlan. Go to www.tstboces.org and click on "MyLearningPlan". Scroll to find the CollegeNow workshop description; click the title and then the "Click to Enroll" button. Note, this is not a TC3 site; if you are new to My Learning Plan, you will need to create an account by clicking "I'm a new user." If you are from a non-TST BOCES school, you still need to enroll via the TST website.

Substitute teacher reimbursements available upon request. Please contact Victoria by June 15 if reimbursement will be needed.

Questions? Please contact Victoria Zeppelin at zeppelv@tc3.edu or 844-8222 x4328.

Co-sponsored by CollegeNow, TST BOCES School Improvement Services, and the Career Pathway Consortia of Central NY and the Southern Tier, with funding provided by the Carl D. Perkins Act.
