Attendance Policy: To maintain good grades, regular attendance in class is necessary. Absence from class is considered a serious matter and absence never excuses a student from class work. It is the responsibility of all instructors to distribute reasonable attendance policies in writing during the first week of class. Students are required to comply with the attendance policy set by each of their instructors. Students are not penalized if they are unable to attend classes or participate in exams on particular days because of religious beliefs, in accordance with Chapter 161, Section 224-a of the Education Law of the State of New York. Students who plan to be absent from classroom activity for religious reasons should discuss the absence in advance with their instructors. See college catalog for more information.

Services for Students with Disabilities: It is the College’s policy to provide, on an individual basis, reasonable accommodation to students with disabilities, which may affect their ability to fully participate in program or course activities or to meet course requirements. Students with disabilities should contact the Coordinator of Access and Equity Services, to discuss their particular need for accommodations. All course materials are available in alternate formats upon request.

Course Description
Focuses on contemporary management techniques with a minimal amount of time devoted to the personnel function. The course introduces students to the basic managerial functions of planning, organizing, staffing, directing, and controlling. Class time is also devoted to total quality management and computer use in management. Prerequisites: MATH 090 if required by placement testing; prior completion or concurrent enrollment in RDNG 116 if required by placement testing; prior completion or concurrent enrollment in ENGL 101. 3 Cr. (3 Lec.).

Course Context/Audience
This is a required course for students in the following programs: Business Administration - A.A.S., Business Management - Certificate, Manufacturing Management Technology – Certificate, Office Management and Administration A.A.S. degree, and Sport Management – A.S. degree. It is also appropriate for someone with a general interest in the management field.

Basic Skills/Entry Level Expectations
Writing: WC College level writing skills are required. See course co-requisites or pre-requisites.
Math: M2 Completed MATH 090 if required by placement testing.
Reading: R3 Course may be taken concurrently with RDNG 116 if required by placement testing.

Course Goals
By successfully completing this course, the student will be able to demonstrate:
1. An understanding and the ability to apply the theories and concepts of contemporary management.
2. Analytical and decision making skills.
3. An understanding and the ability to apply the five basic managerial functions of planning, organizing, staffing, directing, and controlling.
4. His/her knowledge about and ability to apply the basic theories and concepts of managerial leadership, motivation of employees, team dynamics, and communication.

</tbody>
</table>
Students will begin to understand how their lives are shaped by the complex world in which they live.

Students will understand that their actions have social, economic and environmental consequences.

Students will spend a good portion of semester examining variations in management strategies based on location and culture in the US and the rest of the world.

Textbook reading and ancillary reading will cover cultural issues within the US and the world. Videos provided by the publisher will take the student outside the classroom. Appropriate websites will give student access to information from other parts of the world as well.

Students will study the effect that US and other companies have on the cultures in which they attempt to sell their products.

Case studies and case histories on the actions of companies and their effect on culture will provide knowledge in this area.

**Instructional Methods**
The instructor should use multiple instructional methods. Lecture and discussion should make up approximately 50% - 80% of the class time while the rest of the course time should be made up of small group exercises. Students can work in teams to complete the required case study.

**Methods of Assessment/Evaluation**
